WORK EXPERIENCE

An EWE Scheme is not part of your career choice neither is it training. It is intended to provide broad experience of working, of seeing how a company operates and doing so in a situation where language skills may be realistically used.

1. Describe any previous work experience or part-time jobs you may have had and any skills which might be useful.
2. List three broad areas of work which would appeal to you (there is no guarantee that these preferences will be met). Rank these areas in order of preference, with (a) being your first choice.
